**BASE BALL.**

PHILADELPHIA, Nov. 9.—The annual meeting of the National Base Ball League was opened at the Hotel Walton today, but at a much later hour than was expected, it being quite late in the afternoon before the delegates got together. The protracted session last night of the board of arbitration, which continued until the small hours of this morning, and the animated evening discussions of the outside corps of base ball visitors in the hotel parlors and lobbies had its effect in tardy movements this morning. Among the notable arrivals this morning were Manager Adrian C. Anson, of Chicago; Chris Von Der Ahe, of St. Louis, and George and Earle Wagner, of Washington.

Rumors of death were again prevalent this morning, one of them being to the effect that the Boston triumvirate desired to secure Catcher Clements, of Philadelphia. It was hinted that Bobby Lowe would be offered in exchange for Clements, but Messrs. Soden and Conant stated positively that there was no intention whatever of permitting Lowe to be dropped from the champion team. There was also talk of a probable deal of some sort between Washington and Philadelphia clubs.

The first meeting to-day was that of the league board of directors. This board which met shortly before noon consists of Messrs. Freedman and Soden, from the East, and Pulliam, Robinson and Von Der Ahe, from the West. The functions of the board consist of hearing appeals or protests pertaining to clubs within the national league and to receive the annual reports of the secretary and treasurer. This board has no jurisdiction over minor league affairs.

Following the meeting of the board of directors the national board of arbitration again went into session to dispose of matters unfinished at last night's meeting.

Then followed the first session of the National League and American Association of Professional Base Ball Clubs, or as it is familiarly known "The Big League." The board of directors meeting was brief and according to a statement given out by Secretary Young was unimportant. The claim of Morgan Murphy against the St. Louis club was dismissed. The secretary was authorized to establish an office in the business section of Washington, for league headquarters.

The board of arbitration then went into session. Among the deals which are generally credited is the one placing Catcher Grady, of St. Louis, with the New York team.

The national board of arbitration disposed of matters unfinished at last night's session. The most important subject before the board was the petition of the class A leagues for a modification of the drafting clauses of the national agreement. The petition presented met with no opposition in the board and its provisions should be recommended to the National League for adoption. The suggested change in the rules for drafting, which will without doubt be endorsed by the league, provides that no player can be drafted by the National League unless he shall have served at least two years in the class A league from which the draft is desired to be made. Class A consists of the Eastern, Western and Atlantic leagues. No change was asked by the minor leagues in the drafting price, which remains at \$500. On the suggestion of John T. Brush, an amendment to the drafting clause was also recommended to the league for approval, which grants permission to the National league clubs to loan a player to a minor league club with the understanding that the player can be recalled on thirty days' notice.

Among the affairs of less general interest disposed of by the board were the following:

The Springfield, Ohio, club, of the inter-state league, was ordered to pay to the Cincinnati club \$10, which the board decided was due to the latter club, on account of the transfer of Pool and Cavanaugh to Springfield.

The Philadelphia club is endeavoring to effect a deal with St. Louis by which Monte Cross, Catcher Douglas and Pitcher Donohue can be brought to Philadelphia. It is said Von Der Ahe has offered Taylor, Clements, Nash and Lave Cross for the three players named or any three of them for Monte Cross and Douglas.

**BOWLING.**

**WHEELING LEAGUE.**

	Won.	Lost.	Per.
Auroras	14	1	.933
Comopolitan	9	3	.750
Pirates	8	4	.667
Idolians	7	5	.583
The Bowlers	10	5	.667
Bilver Globes	6	6	.500
Tidal Waves	6	6	.500
Defenders	8	2	.800
Old Cronies	2	19	.100
Aber-Nit	1	24	.042

The Auroras continued their winning streak last night by winning three straight from Defenders. The second game was very close and exciting. Score:

**Potent! Powerful!! Positive!!!**

Why nauseate, irritate and upset the stomach, and derange the bowels by loading up the system with all sorts of indigestible and often intestinal irritants, when you have so potent, powerful and positive an external remedy as

**Benson's Porous Plasters**

which accomplish as much and more than the former without producing any of the above effects. They are composed of medicinal ingredients that never fail to promptly relieve rheumatism, neuralgia, sciatica, lumbago, headache, toothache, sprains, strains, swellings, inflammation of the joints, etc. etc. Laid upon a piece of clean, white muslin.

Prepared by Benson & Johnson, Mfg. Chemists, New York.

Fifty Years Ago.

This is the cradle in which there grew That thought of a philanthropic brain A remedy that would make life new For the multitudes that were racked with pain.

'Twas sarsaparilla, as made, you know, By Ayer, some 50 years ago.

## Ayer's Sarsaparilla

was in its infancy half a century ago. To-day it doth "bestride the narrow world like a colossus." What is the secret of its power? Its cures! The number of them! The wonder of them! Imitators have followed it from the beginning of its success. They are still behind it. Wearing the only medal granted to sarsaparilla in the World's Fair of 1893, it points proudly to its record. Others imitate the remedy; they can't imitate the record.

### FOOT BALL.

The W. A. C. is considering an offer from New Concord, Ohio, for a game there the coming Saturday, and it is likely they will go. It will be the first game under W. A. C. colors.

The Ritchies will play the Bellaire high school team one week from Saturday, at Bellaire. The eighth ward boys intend to win this game, to in part atone for the two defeats chalked up against them this season.

Wheeling shares in the interest taken in the big college games, and much speculation is indulged in regarding the outcome of Saturday's battle between Harvard and Yale. On form it looks as if the crimson will wave triumphant this year.

F. Harris Yost, who has been coaching Ohio Wesleyan University, is likely to be picked up for the rest of the season by the M. C. C. of Youngstown. The only obstacle is that this team hasn't arranged its Thanksgiving game yet, hence is not so anxious for Yost's services as it was early in the fall.

### VISITED OHIO'S "PEN."

A party of officials from the Mountaineers, W. Va., prison, spent Sunday at the Ohio pen as the guests of Warden Coffin. In the party were Warden S. A. Hawk, Dr. W. A. Steele, prison physician, and John A. Boyd, member of the board of managers. The chief object of the visit was to gather some information as to prison contracts and especially to look into the workings of the glove contract. Extensive changes are contemplated at the prison, and the officials desire to gather information on a number of subjects. The visitors expressed themselves as being greatly pleased with what they saw while going through the prison.—Columbian Dispatch.

**TO CURE A COLD IN ONE DAY.**  
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

### THE RIVER.

**YESTERDAY'S DEPARTURES.**  
Matamoras...LEXINGTON, 11 a. m.  
Clarion...GUYANDOTTE, 11 a. m.  
Clarion...LEROY, 3:30 p. m.

**BOATS LEAVING TO-DAY.**  
Clarion...LEROY, 3:30 p. m.

**BOATS LEAVING TO-MORROW.**  
Matamoras...LEXINGTON, 11 a. m.  
Matamoras...GUYANDOTTE, 11 a. m.  
Clarion...LEROY, 3:30 p. m.

### RESUMPTION OF NAVIGATION.

The river is still rising and the reports from headwaters would indicate a stage this week that will allow all of the packets to resume, although it is possible there will not be enough water for the Cincinnati line's packets. The Bedford, which has been running in the Cincinnati and Louisville trade, has been retired and will likely be here this week. The Will J. Cummins, Ben Hur, Ruth and Argand will probably resume in their regular trades out of this port within a few days.

### Along the Landing.

The Mountaineer wharfbait has been placed on dry dock for repairs on her hull.

The wharfbait will likely arrive today or to-morrow from Parkersburg in tow of the Eliza H.

The marks at 6 p. m. showed 24 inches, (actual stage 34 inches) and rising slowly. Weather cloudy and cool, with rain.

The Leroy came up at noon and departed at 4 p. m. for Clarion. Captain Thad Thomas, the veteran steamboatman, is on the roof.

The Lexington cleared for Matamoras and way landings at 11 a. m. yesterday on her first trip for several weeks. She had a good trip of passengers and freight.

### River Telegrams.

**BROWNVILLE**—River 4 feet. Weather rainy.  
**OLY CITY**—River 5 inches and rising slowly. Weather cool; light rain falling.

**GREENSBORO**—River 9 feet 4 inches and rising. Rainfall .33. Weather cloudy and high winds. The Isaac Mason and Florence Belle due down on Wednesday.

**PITTSBURGH**—River 2.9 feet and rising at the dam. Clear and cool.  
**STUBENVILLE**—River 3 feet 1 inch and rising. Weather clear and cool.

**PARKERSBURG**—River 3 feet 3 inches and rising. Cloudy and mercury 69. Down: Valley Belle, Little Kanawha rising. Locals started out this afternoon. Prospects good for early resumption of traffic on both rivers.

**CAIRO**—River 2.7 feet and rising. Cloudy and cool.

**LOUISVILLE**—River rising; 4 feet 8 inches in canal, 5 feet 6 inches on falls, 3 feet 8 inches below locks. Cloudy and cold.

**EVANVILLE**—River 1.2 feet and rising. Cloudy and colder.

**MEMPHIS**—River 6.0 foot and stationary. Clear and cold.

**PORT PLEASANT**—River 2.3 feet and rising. Cloudy and cooler.

**CINCINNATI**—River 7.3 feet and rising. Cloudy.

### THE BELLAIRE STRIKE.

No Developments of Importance Occurred Yesterday.

There was nothing new in the strike situation at Bellaire yesterday. All is quiet and all of the industries in the town except the steel works are running full. The strikers at that plant are active. Yesterday morning they stopped seven or eight colored men who were going to the mill, at Cummins crossing, and after explaining the situation to them agreed to pay their railroad fare if they would return home. The whole crowd left without going to the mill.

Frank Colard, the head of the machinery department, got his foot mashed while at work yesterday and will be laid up for some time, as it is seriously injured.

Some of those against whom complaints of assault have been made are anxious for a hearing or the withdrawal of the charge, as they insist the only night was in the role of peacemakers. Some of the others will probably waive hearing at Bellaire. The cases are set for 1 o'clock to-day before Squire Mason. If any of them stand trial they will demand a jury, and this will likely put the cases off for a few days. The company has engaged Messrs. John A. Gallaher, James C. Tallman and Col. W. W. Arnett. Those accused will engage Newell Kennon or Judge J. B. Briggs.

### BELLAIRE.

All Sorts of Local News and Gossip From the Glass City.

The session of the Barnesville district conference here were all well attended and were interesting throughout. There were present quite a number of delegates from the churches of the districts and these were entertained at the homes of local members of the church. The reports from all parts of the district were encouraging as to the church work and some of the discussions awakened new interest on the part of the church workers. The sessions closed last night.

### CITY COUNCIL MEETS.

The city council met last night and transacted considerable routine business of little public interest. The matter of the right of way for the Postal Telegraph Company, was taken up and on ordinance presented granting the right. The bids for the proposed new sewer will not be considered until the next meeting.

### ECHOES OF THE DISTURBANCE.

William Randolph, one of the colored thugs who made himself conspicuous Saturday night, is still in the lockup, in default of a fine for being drunk and disorderly. Robert Irwin, another offender in this line, was released on giving security, but failed to show up for a hearing. He will probably enter a plea of guilty and pay the fine assessed.

### OFF THE DOCKS.

The ferryboat Charon returned from the docks yesterday and resumed operation between Bellaire and Benwood in the afternoon.

### PLATE MILL MEN DISCHARGED.

Some of the boys in the plate mill were discharged yesterday and it was reported the others intended to quit work, but definite information as to this could not be had yesterday. It will be known to-day whether they quit work or not.

### BELLAIRE BRIEFS.

William McClelland, a former resident of this city, but now located in South Carolina, passed through the city yesterday, on his way home from Philadelphia, where he has been working with the government surveyors.

Revival services are being held each evening this week at the Christian church. They are being well attended and much interest is being taken in them.

Dr. Boone, Kemple and the Wasmann brothers left yesterday for the interior of the state, to get out for a quail hunt early this morning.

Roscoe Snedecker, who has been working in Sistersville, will be home to-morrow to spend a few days with relatives in the Fifth ward.

Literary exercises will be held in the high school room next Friday afternoon.

Carter Bros. are building a new barn on their farm, west of this city.

### M'NECHEN.

Breezy News Items Gathered in the Busy Marshall County Town.

Edward Murphy, Baltimore & Ohio engineer, was called on Monday to Greensburg, Pa., by the serious illness of his father, who is 94 years of age.

Mr. Joseph Garbesie and Charles Conner, of Mountaineer, and Lawrence Zarnitz, of Wheeling, were visitors in town yesterday.

Rev. W. A. Williams, of Mountaineer, will start a revival meeting to-night at the Christian church.

Baltimore & Ohio brakeman George O. Criswell is able to be put again after two weeks' sickness.

Miss Annie Harbinser, of Woodland, is visiting her sister, Mrs. B. D. Eden, of Gravel street.

Baltimore & Ohio brakeman Thomas D. Stewart is off duty on account of sickness.

Miss Brighlie West, of St. Clairsville, Ohio, is visiting her brother, S. B. West.

G. W. Kettelwell has returned from Columbia.

Life is a battle field. Every day brings its fierce, unceasing conflict; every night leaves its multitudes of dead. The horrors of war are no greater than the horrors of disease. If all the nations of the earth were at war against each other there would be no such carnage wrought within the year as that which is accomplished annually by one dread disease—consumption.

And yet this most fatal of all diseases is not without its remedy. It is no longer the irresistible destroyer that it was considered thirty years ago. An entirely new aspect is put upon the possibilities of this dreadful malady by the astounding remedial action of Dr. Pierce's Golden Medical Discovery, which cures consumption by nourishing the lungs with an abundant supply of pure, highly vitalized blood.

This stops the formation of tuberculous matter, and builds up fresh tissue, muscular flesh and vital energy. It gives digestive power to the stomach which is too weak to assimilate oily emulsions.

Miss Lucy Kieffer, of Amada, Mich., writes: "When I was about eight years of age I had inflammation of the lungs, and from that time up I was sick nearly all the time and had a doctor nearly all the time. I would take cod liver oil, but it would go right to my lungs. At the age of nineteen I was very bad, there was pain in my lungs, tickling in my throat and my throat was stuffed with secretions. I could not breathe, and I was in great distress. I was told to take cod liver oil, but it would go right to my lungs.
